The Direct Writing Assessment (DWA) is a criterion-referenced test that is designed to assess the writing skills of students enrolled in the fifth and eighth grades. Beginning in 2010, the DWA was administered online and scored using artificial intelligence. Student responses are scored for each of the six writing traits: ideas and content, organization, voice, word choice, sentence fluency, and conventions.

There are five points for each trait, with a total possible score of 30. The DWA proficiency percentage reported here shows the percentage of students scoring 18 or higher. Prior to 2010, the DWA was administered to the sixth and ninth grades.

2011 Direct Writing Assessment (DWA) Results for State of Utah

	DWA Grade 5		DWA Grade 8	
	Total Tests	% Prof	Total Tests	% Prof
All Students	44,452	83%	40,659	81%
