### Beehive Academy Toilet Training Policy for KG

**Purpose:** Beehive Academy recognizes the importance of toilet training in promoting independence and maintaining a conducive learning environment for all students. This policy is in accordance with Utah State Board Rule 277-631 and aims to ensure that all students entering Kindergarten are adequately toilet trained to minimize disruptions and promote a positive educational experience.

#### Policy Statement:

**Toilet Training Requirement:** Students must be toilet trained before entering Kindergarten at Beehive Academy. Toilet training is defined as the ability to:

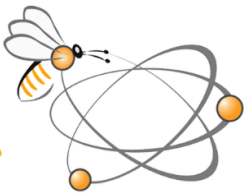

- Communicate the need to use the toilet.
- Independently sit down on the toilet without assistance.
- Independently undress and dress themselves for toilet use.
- Independently tend to hygienic needs after using the toilet.
- In the event of an accident, the child must independently tend to their hygienic needs and change their clothes if necessary.

**Definition of Students Not Toilet Trained:** Students who experience accidents with sufficient frequency to impact their educational experience or that of their peers, as determined by Beehive Academy, will be considered not toilet trained.

**Parent Assurance:** Parents or legal guardians of incoming Kindergarten students are required to sign an assurance confirming that their child has been toilet trained according to the criteria outlined in this policy.

**Verification of Toilet Training:** Beehive Academy reserves the right to verify the toilet training status of incoming Kindergarten students. If it is found that a student who has been assured to be toilet trained is not, Beehive Academy may take the following steps:

- The student may be asked to leave the Kindergarten program for a temporary period (typically a few weeks) to work on toilet training at home.
